

**Project:** Drivecity (CarShare)

**Project No:** 3

**As At:** 23/06/2019

No	Description	Impact	L'hood	Owner	Mitigation Strategies	Contingency Plan
1	Use of Laravel	M	M	Mahima, Ahnaf, Khatina	Understanding what Laravel is and how to use it	Researching thoroughly on how to install Laravel
2	Lack of Communication	L	H	Mahima, Ahnaf, Khatina	The team should be participating in communicating with each other to understand where they are at	Use Facebook messenger for communicating or plan to meet somewhere if needed to clarify anything not understood.
3	Software Failure	M	M	Mahima, Ahnaf, Khatina	Getting updated software and Equipment.	saving the work if any code is implemented or when work is done. As well as creating a backup for the work
4	Scope Creep	M	H	Mahima, Ahnaf, Khatina	Understand the exact scope of the project so that the team do not go beyond what is needed	If the team is unclear of the scope then communicate with other team members to understand what is needed to be done.
5	Using MySQL	M	M	Mahima	Setting up the database with google cloud	Make sure the database table has the right tables in them and the user data is stored in the database
6	Delay on project	H	H	Mahima, Ahnaf, Khatina	Communicating with team members is essential as to keep track of anyone who is behind.	Trello will be used to keep track of who is doing what and to make sure everyone has done their part of the project.
7	Project schedule	M	L	Mahima, Ahnaf, Khatina	Make sure to hold meetings every 2 days per week	In case of meeting being cancelled on a specific day, make sure that team reschedules the date for the meeting

Impact = Impact on the Business or project in the event the risk is realized

L'hood = Likelihood of risk being realized
